

**2011 IEEE International Conference on Fuzzy Systems**  
**Grand Hyatt Taipei, Taipei, Taiwan**

**Call for Papers: Special Session on Fuzzy Approach for  
Information Security Management**

**Submission Deadline: January 15, 2011**

Information security management has become an important research issue around the world, since modern organizations are becoming increasingly complex with emphasis on mobile, agile, and competitive than ever before. Information security management refers to the proactive management of information risks, threats, and vulnerabilities. In order to achieve information security management, individuals and organizations must comply with certain security guidelines and frameworks. This special session offers opportunity for researchers related to these areas to discuss various aspects of the fuzzy approaches and soft computing for information security management.

Topics of interest includes, but not limited to theory and application of

- ◆ Fuzzy Approach for Information Security Management
- ◆ Soft Computing for Information Security Management
- ◆ Knowledge Management Framework
- ◆ Artificial Intelligence/Expert Systems

Papers are invited from prospective authors with interest on the related areas.

**Chair:**

Associate Professor Tzung-Nan Chuang  
National University of Tainan, Tainan, Taiwan  
33, Sec. 2, Shu-Lin Street. Tainan, Taiwan 700  
Phone & Fax: +886-6-260-6123#7731  
Email: chua@mail.nutn.edu.tw

**Co-Chair:**

Assistant Professor Che-Hung Liu  
National University of Tainan, Tainan, Taiwan  
Phone & Fax: +886-6-260-6123#7727  
Email: chehung@mail.nutn.edu.tw

**Co-Chair:**

Professor Chang-Shing Lee  
National University of Tainan, Tainan, Taiwan  
Phone & Fax: +886-6-213-3111#600  
Email: leecs@mail.nutn.edu.tw
