Call for Papers

Special Session on

Neuro Fuzzy Systems and Their Real World Application

● Introduction

The proposed special session aims to concentrate the efforts of the real world application based upon neuro fuzzy systems of researchers that aim development of neuro fuzzy systems for the real world application by designing methods, techniques, algorithms, software and real world application of neuro fuzzy systems.

From this viewpoint, this special session offers a unique opportunity for researchers related to these are as to discuss various aspects of the neuro fuzzy systems for real world application and present a more useful knowledge and wisdom.

● Topics of interest (includes, but not limited to theory and application of ~)

- Neuro Fuzzy system
- Fuzzy rule-based System
- Knowledge Discovery
- Data Mining
- Machine Learning
- Online Learning
- Human-Computer Interaction (HCI)
- Mobile Service Robot
- Intelligence Control
- Vision System
- Human Interaction
- Mappinag and Localization
- Biological-inspired Behaviors
- Multi-Object Coordination

● Important Dates

January 15, 2011: Deadline for submission of papers

March 31, 2011: Notification of acceptance

April 30, 2011: Submission of final camera-ready papers

● Session Organizers

Prof. Sungshin Kim
Pusan National University
Busan, Korea
E-mail: sskim@pusan.ac.kr

Prof. Kweebo Sim
Chung-Ang University
Seoul, Korea
E-mail: kbsim@cau.ac.kr

Prof. Euntai Kim
Yonsei University
E-mail: etkim@yonsei.ac.kr

Prof. Jinwoo Jung
Dongguk University
E-mail: jwjung@dongguk.edu
